STOMACHS ON STILTS.

The man who puts on stilts does not increase his actual stature. He only feels taller. Stimulants are the stilts of the stomach. They make a man feel better for the time being, but he feels a great deal worse for them afterward.

The need of the man whose stomach is "weak" is not stimulation but strength. Dr. Pierce's Golden Medical Discovery perfectly answers that need. It contains no alcohol or whisky. It cures the weak, foul stomach with its attendant bad smelling breath, coated tongue, bad taste, poor appetite and kindred symptoms.

"In the year 1899 I had an attack of indigestion and got so bad that my home doctor said he could not do me any good," writes Mr. G. Trent, of Gordonville, Texas. "I wrote to you and you advised me to use Dr. Pierce's Golden Medical Discovery, so I bought six bottles, and when I commenced using it I was so weak could hardly walk about the house. By the time I had used one bottle my stomach and bowels commenced to heal. There were stripe of the lining of my stomach or bowels (I don't know which) as large as a man's two fingers passed and I had a good deal of misery in my stomach and bowels, and also in the rectum especially. I could not eat anything without having much distress afterward, but by the time I had taken eight bottles of the 'Golden Medical Discovery' I was sound and well, and could eat anything I pleased without suffering in the least. Could also do as much work in a day as I ever could. I have not suffered from the trouble since, and it was four years ago that I was so sick."

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets.

SOFTNESS OF SEALSKIN.

Is Rivaled by Human Hair Where Dandruff is Eradicated.

Sealskin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Scouring the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide. Sold by leading druggists. Send 10c. in stamps to The Herpicide Co., Detroit, Mich.

Two Dyspeptics

If you are too fat it is because your food turns to fat instead of muscle—strength. If you are too lean the fat producing foods that you eat are not properly digested and assimilated.

Lean, thin, stringy people do not have enough Pepsin in the stomach, while fat people have too much Pepsin and not enough Pancreatine.

Kodol

Dyspepsia Cure

contains all the digestive juices that are found in a healthy stomach, and in exactly those proportions necessary to enable the stomach and digestive organs to digest and assimilate all foods that may be eaten. Kodol is not only a perfect digestant, but it is a reconstructive, tissue building tonic as well. Kodol cures Indigestion, Dyspepsia, Sour Stomach, Heartburn, Palpitation of the Heart and Constipation. You will like it.

Digests What You Eat

Rests the stomach, rebuilds the tissues and gives firm flesh.

Dollar bottle holds 2½ times as much as the trial, or 50 cent size. Prepared at the Laboratory of E. O. DeWitt & Co., Chicago, U. S. A.

Heat and Storm in New York.

Ten deaths and more than two-score of prostrations resulted from the continuance yesterday of the wave of intense heat which reach New York city Saturday. A grateful breeze from the sea served in a measure to temper the torrid atmosphere and excessive humidity, but the suffering, especially in the swarming tenement house quarters, was intense, and throughout the day the ambulances were kept busy removing sunstruck patients to the various hospitals. The dead were all babes a year old or less.

At 1 o'clock the thermometer registered 89°, 2° higher than Sunday, and remained at this point until 3 o'clock, when a heavy thunderstorm, with a deluge of rain, descended on Brooklyn, the lower portion of Manhattan and suburban towns in New Jersey. The storm brought a startling fall in the mercury, which dropped 13° within half an hour, effectually breaking the hot wave.

The rainstorm almost attained the proportions of a cloudburst in the lower section of Manhattan, and within ten minutes many of the downtown streets were flooded to the level of the sidewalks. Broad street in the vicinity of the Stock Exchange was rendered impassible, and the brokers on the "curb" were compelled to hasten the close of the market and flee before the rising flood.

A torrent rushing down Broadway, Whitehall street and State street poured into the new subway station at South Ferry, flooding the tracks nearly to the level of the third rail and for a time threatening to interrupt traffic by short-circuiting the current. In Centre and Elm streets many cellars were flooded, the sewers being unable to carry off the water. The rain ceased within half an hour, when the flood in the streets rapidly subsided.

During the height of the storm the administration building on Ellis Island, where there were 2,000 immigrants, was struck twice by lightning, but sustained only trifling damage.

In Brooklyn flagstaffs on the borough hall and several police stations were struck, but little damage was done.

In Jersey City lightning grounded the current on the main electrical power house, and all street-car traffic was halted for two hours.

While practically all New York welcomed the storm that broke over the city shortly before 3 o'clock yesterday afternoon, it brought death to Michael Gannano, 12 years old, who crawled into a coal carrier at the power house of the Interborough Railway Company, Fifty-ninth street and Eleventh avenue, to escape a wetting. He was caught in a huge belt and crushed to death.

The great fall of rain caused a washout at the end of the excavation alongside the power house of the Edison building at Duane and Elm streets. The washout resulted in the caving in of a temporary flooring, under which a dozen laborers had taken shelter. Six men were hurt in the crash that followed.

Duel in Public Road.

Mr. Frederick King and Captain J. L. Moore, both of Greenesville county Va., and prominent farmers living near Clareville, became engaged in a desperate pistol fight late Saturday afternoon, and as a result of the duel Captain Moore now lies badly wounded at his home.

It is said that King had been forbidden by Moore to come to his house where, for some time, he has been a visitor, paying attentions to an adopted daughter of Captain Moore.

King, smarting under the restraint, became greatly angered by Moore's edict, and for many weeks bad blood has existed between the two men.

King, while passing the home of Moore Saturday, was accosted by the latter and asked to explain some reports King had made about him. King did not feel inclined to submit to Moore's method of stopping him in the road, and at once became much angered, at the same time drawing his revolver and daring Moore to follow him up the road. Moore, not being armed, hastened to his house nearby, and procuring a revolver, returned, when the duel began.

Eye witnesses are not sure who fired the first shot. Moore claims his pistol refused to fire, while King emptied his gun in the direction of Moore, who fell badly wounded, a ball plowing its way through his face and throat.

Moore's condition is critical. King escaped unhurt. He promptly surrendered to the local authorities and is now out on bail.

This is a pure, tonic medicine; of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system It is much to be preferred to Quinine, having none of this drug's bad after-effects. E. S. Munday, of Henrietta, Tex., writes. "My brother was very low with malarial fever and jaundice, till he took Electric Bitters, which saved his life. At E. S. Leadbeater & Sons drug store; price 50c. guaranteed.

Dyspepsia of Women

ABSOLUTELY NEEDLESS AGONY

Caused by Uterine Disorders and Cured by Lydia E. Pinkham's Vegetable Compound

A great many women suffer with a form of indigestion or dyspepsia which does not seem to yield to ordinary treatment. While the symptoms seem to be similar to those of ordinary indigestion, yet the medicines universally prescribed do not seem to restore the patient's normal condition.

Mrs. Pinkham claims that there is a kind of dyspepsia that is caused by a derangement of the female organism, and which, while it causes a disturbance similar to ordinary indigestion, cannot be relieved without a medicine which not only acts as a stomach tonic, but has peculiar uterine-tonic effects also.

As proof of this theory we call attention to the case of Mrs. Maggie Wright, Brooklyn, N. Y., who was completely cured by Lydia E. Pinkham's Vegetable Compound after everything else had failed. She writes:

"For two years I suffered with dyspepsia which so degenerated my entire system that I was unable to attend to my daily duties. I felt weak and nervous, and nothing that I ate tasted good and it caused a disturbance in my stomach. I tried different dyspepsia cures, but nothing seemed to help me. I was advised to give Lydia E. Pinkham's Vegetable Compound a trial, and was happily surprised to find that it acted like a fine tonic, and in a few days I began to enjoy and properly digest my food. My recovery was rapid, and in five weeks I was a well woman. I have recommended it to many suffering women."

No other medicine in the world has received such widespread and unqualified endorsement, or has such a record of cures of female troubles, as has Lydia E. Pinkham's Vegetable Compound.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent. of his earnings. He must spend nine dollars in living expenses for every dollar saved. This being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by Gibson & Timberman and W. F. Creighton & Co.

Alexandria Gazette AND VIRGINIA ADVERTISER

TUESDAY EVENING, JULY 11, 1905.

FOLLOWING the scandal in connection with the alleged sale of advance cotton statistics by former Assistant Statistician Holmes comes the report that there have been leaks in the grain and tobacco reports. President Roosevelt may be asked to order an investigation of the Department of Agriculture in its entirety. Complaints are beginning to pour in upon Secretary Wilson embracing both the grain and tobacco reports, and many of them are of a very serious character. Many persons urge abolition of all reports. Some of these complaints allege that agents of the tobbaco trust have been furnished with statistics by men in the department with such accuracy that the trust was enabled to fix tobacco prices to suit itself. If these charges can be proved, it will be shown that others than Holmes in the employ of the department were juggling with statistics for purposes other than those intended by the government. Such substantial ground for suspicion now exists that it is felt no matter how careful the department is from now on confidence in its crop reports cannot be restored until there has been such an investigation as will convince every one that they are being handled for the good of the public exclusively.

MANY PEOPLE are beginning to believe nothing they read about the Russian cruiser Kniaz Potemkin. Not long ago it was published that she was manned by a loyal crew; then that her crew had mutinied, killed the officers and raised the flag of revolution; then it was stated that the whole affair was but a row among some drunken sailors; then that the ship had bombarded Odessa and Theodosia; then she had defied what was left of the Russian navy; then that she had surrendered to the Roumania government; then that she had been taken possession of by a Russian crew and had joined the Russian fleet, and today it is published that the ship was not turned over to the Russian admiral, as previously reported, but that the mutineers opened the seacocks and flooded her, and that the vessel is now lying at the bottom. Was there ever any such ship as the Kniaz Potemkin, to start with?

SENATOR MARTIN'S friends, and indeed all true democrats, will be glad that the attempt to bring about another joint debate between him and Gov. Montague has been declared off. At King George last week the Senator promptly accepted a challenge from the Governor for such a debate and acquitted himself to the entire satisfaction of all his friends throughout the State. The Governor realizes that he was decidedly worsted in the meeting and now wishes another chance to get even. Senator Martin has nothing to gain by such meetings, which are calculated to bring about dissensions in the democratic party and such dissensions would only help the republicans who are watching and waiting to take advantage of all breaks in the democratic ranks.

THAT THERE is no material diminution in disorders in Russia is apparent from the dispatches received daily from that country. Another horror was added this morning to the many of recent date when the Prefect of Moscow was murdered while he was receiving a deputation who presented a petition to him. The official was shot and instantly killed while conferring with the petitioners. Advices from St. Petersburg today show that the gravest anxiety exists concerning the Black Sea fleet, as troubles similar to those which recently occurred on the Kniaz Potemkin are feared.

FEARFUL, indeed, is the price being paid for industrial progress in America. Every year, according to statistics just gathered, in the neighborhood of 70,000 persons are killed and considerably over a million seriously injured while engaged in or connected with industrial pursuits. From the humanitarian standpoint, these figures are appalling enough, without taking into account at all the enormous annual loss to property. Modern industry kills and maims far more people than fall in actual warfare.

THE HOT WAVE which has hung over a large area during the past week has caused many deaths in various places in the country. The suffering in the large cities has been great, twenty-one persons having died from the effects of the heat in New York, while five or six times as many have been stricken. Death invariably follows in the wake of torrid waves. It behooves all to exercise care during the heated term, especially in eating and drinking, and, as far as possible, to avoid unnecessary exposure to the sun's rays.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., July 11.

Reports that tobacco growers have made accusations that the agricultural bureau of statistics have juggled figures on the productions of that staple for the benefit of the trust are denied here, because the system of tobacco reports is practically in its infancy and so far has offered little opportunity for manipulation and has never exercised an important influence in the tobacco markets of the country. For some time the department has been developing tobacco, rice and truck reports, to be issued in conjunction with the general crop report issued on the tenth of each month. It is possible that the whole list of crops reported may be gone over, and an investigation conducted in the methods used in gathering and tabulating figures on all the staples. "There is no doubt about suspicion being rife among producers of all crops since the Holmes incident," said Secretary Wilson this morning. A general overhauling is not improbable under the circumstances. This morning, Mr. Hyde, Assistant Secretary Hays and a force of clerks were locked in the rooms of the bureau of statistice and it looked as if the oft repeated assertion that there is no chance for a leak would apply truthfully to the crop report this afternoon.

In the Postoffice Department crusade against impurity in the mails attention has been directed to questionable souvenir postal cards. Daily the offices of the general superintendent of the city and rural free delivery are in receipt of scores of these pieces of brilliantly printed card board having a tendency toward the immoral, obscene or profane. They are sent in by argus-eyed mail carriers, postal clerks or postmasters, all over the country in conformity with the instructions of the postmaster general that such missives must not be delivered to the persons addressed. Hundreds of designs just a trifle "off color," but which may be seen exhibited in windows of reputable stores in the city, town and hamlet, are among the tabooed. The fellow who buys the card that bears the inscription "I'm having a devil of a time," with the devil represented by a flaming red figure of his Santanic majesty will be greatly disappointed when he learns that the cent stamp affixed carried his cheerful message to Postmaster General Cortelyou instead of to his chum back at Jonesville.

In reply to a message from President R. M. Miller, jr., of the American Cotton Manufacturers' Association, requesting representation during the preparation of the Augnst cotton report, provided Secretary Cheatham, of the Southern Cotton Growers' Association, is present, Secretary Wilson, of the Department of Agriculture, has wired that the regular custom will be followed permitting only the departmental statisticians and the secretary or assistant secretary of the department to observe the complication of the figures. The only outsiders who have ever witnessed the preparation of final figures on crop reports have been members of Congress, officially invited so they might inspect the methods employed.

Theo. E. Shonts, chairman of the Panama Canal Commission, and John F. Stevens, the new chief engineer, returned today from Oyster Bay where they had a pleasant interview with the President in anticipation of their approaching visit to the isthmus. It was Mr. Stevens' first meeting with the President and he took advantage of the opportunity to assure him that in accepting the appointment of Chief Engineer of the canal he did so with the full intention of staying until the completion of the job. Messrs. Shonts and Stevens expect to sail for the Isthmus on the 18th or 20th inst. Mr. Stevens says that he will make no appointments on his engineering staff until after he has arrived at Panama and has examined the material he has at hand. An additional case of yellow fever has been announced by Gov. Magoon. The patient is August Schimpf, an American employee at Colon.

An absolute denial was given by officials of the War Department this morning of the sensational stories published from Philadelphia that as a result of a scandal involving the manufacture of clothing for the army at the Schuylkill arsenal, Philadelphia, Quartermaster General Humphrey had preemptorially ordered work stopped on 200,000 dress coats being made under contract. The War Department officials who are cognizant of the situation at the Schuylkill arsenal did say, however, that through the interference of ward politicians in Philadelphia the government was having more trouble at the quartermaster's depot there than with all the other depots put together.

War Department officials declare that Col. Frank Thorpe, commandant of the artillery district at Baltimore, has acted perfectly right in refusing to allow any of his officers to return the official visit of the captain and officers of the French cruiser Jurien de la Graviere, which recently failed to salute Fort Howard, the quarters of Col. Thorpe and the official saluting post of Baltimore. The French cruiser, it will be remembered, saluted Fort McHenry instead of Fort Howard, the proper saluting post. It was a mistake on the part of the commander, and similar ones have been made by other French vessels, in which cases they have subsequently repaired to the proper places and fired salutes. Probably the Jurien de la Graviere will do likewise.

General John M. Wilson, chairman of the inaugural committee of 1905, today expressed to President Roosevelt and Vice President Fairbanks the handsomest inaugural medals ever presented to the chief and vice chief magistrates of the country. The medals are of solid gold, three and a half inches in diameter and weigh four ounces. They were designed by Adolph E. Weinman, of New York, under the direction of the eminent sculptor Augustus St. Gaudens. The obverse side bears a bas relief of the President, with the date and the President's name. The reverse side is decorated with the American eagle and the national motto. Bronze medals of the same design have been presented to the members of the committee.

More than $43,000,000 invested in yachts, $6,000,000 in clubhouses and club property, and $8,000,000 spent every year for pleasure in yachting. Such are the figures quoted by Arthur F. Aldridge, in Pearson's Magazine for June, to support the declaration that yachting is the costliest sport in the world. The expenditures given are for the United Statea. There are now 390 yacht clubs in this country, with more than 30,000 members and a total of 3,118 carefully recorded yachts.

Friend Died to Save Him.

Rather than see his chum, Arnold Lawson, who is the only son of Thomas W. Lawson, of Boston, killed, Gilbert Johnson, of Denver, sacrificed his own life.

The tragedy, which has prostrated young Lawson with grief, occurred Wednesday at the Tom Lawson Mine, at Vrique, Mexico.

Manager Rein was paying off some of the extra men, among them Jesus Rocha, who demanded $3 more. The manager refused, angry words passed and the two men were soon engaged in a quarrel. Suddenly the Mexican drew a long knife. Lawson and Johnson ran to the manager's assistance. The Mexican had aimed a blow at Rein that would surely have gone home had not young Lawson run forward and pulled the manager out of the way.

The Mexican, wild with rage, tried to stab Lawson. Johnson ran forward and attempted to disarm the man. Just as the Mexican's arm was raised to strike Lawson, Johnson attempted to catch his wrist, but missed and the knife was plunged into his breast.

Rocha was overpowered, disarmed and taken away by angry miners. According to reports, they lynched him. A doctor was summoned, but Johnson expired before he arrived.

Although but 28 years old, Johnson was the chief engineer of the mines. He had been there only a month, having gone from Kennett, Cal. Young Lawson, who is treasurer of the mines, and Johnson soon became fast friends and were seldom apart.

Thomas Lawson has been notified and he will try to have the body removed from Mexico and sent to Denver.

Offers for 45,000,000 pounds were made in London, alone. The bonds are quoted on the stock exchange at 1-16 premium.

He was later arrested and identified by Mrs. Gabbart. The man gives the name of Horace Webb, but denies the charges against him. He is in jail.

Battle with Moonshiners.

Details reached Roanoke yesterday of the battle between United States revenue raiders and moonshiners in the mountain fastnesses of Buchanan county Saturday, in which, as stated in yesterday's Gazette, three moonshiners were killed and three other moonshiners mortally wounded and one revenue agent shot. The dead are Columbus Collins, Andy Anderson and G. Senter. The names of the mortally wounded moonshiners are not obtainable. The wounded revenue agent is Deputy Collector G. M. Tucker, of Richmond, who was shot in the abdomen.

It was one of the most sanguinary encounters which ever occurred in that section between revenue agents and moonshiners. Tucker, in company with Deputy Marshal Short and five possemen, went to the vicinity of Jean, some distance from Grundy, the county seat of Buchanan, with the purpose of raiding alleged illicit distilleries said to be operated by Columbus Collins, Andy Anderson and Henry Adams. The night was moonless and the revenue agents proceeded cautiously, after getting within a few miles of the distilleries. When within half a mile of their game the raiders dismounted, and leaving their horses, proceeded on foot.

They had not gone far when they saw a party approaching, carrying a lantern. The raiders lay quiet, and when the moonshiners came up heard them say that "If any revenue men ever came into that neighborhood they would be carried out dead."

At this juncture Tucker sprang forward, and, telling the moonshiners who he was, commander them to surrender. This command was answered by a volley, and Tucker was shot in the abdomen, but not seriously injured. He grappled with Henry Adams, and in a hand-to-hand struggle Tucker's pistol was discharged, but with what damage it is not known.

The other raiders then took a hand, and the fight became general. The raiders retreated, and were followed some distance by more moonshiners. Word reached Grundy Sunday giving the names of the three men killed.

Henry Adams, who led the moonshiners, is alleged to have a record of slaying four men and wounding several more in his many personal encounters with revenue agents. There is not a railroad in Buchanan county, and the scene of this battle is one of the most isolated places in the mountains.

Today's Telegraphic News

The Black Sea Fleet.

Kustenji, Roumania, July 11.—The water has been partially pumped out of the Kniaz Potemkin, which was sunk by the mutineers who opened the seacocks before they surrendered the battleship. It is expected that the vessel will be floated during the course of the afternoon. As soon as she is raised she will be coaled and will start at once for Sevastopol. None of the members of the crews of the loyal Russian battleships which came to Kustenji to take charge of the Kniaz Potemkin was allowed to go on shore, as the officers feared the men might become mutinous if they associated with the mutineers of the Potemkin.

St. Petersburg, July 11.—The gravest fears are entertained by government officials that the disaffection among the sailors of the Black Sea fleet, which manifested itself in the recent mutiny among the crew of the Kniaz Potemkin, may extend to the naval officials of that squadron, and plans are being made to prevent any spread of the mutinous spirit. For this reason, it has been decided to replace the Black Sea naval officers with officers who have been serving on their way to Sevastopol to relieve the officers whose loyalty is doubted.

The Hot Wave.

Boston, July 11.—The maximum temperature of Boston yesterday as recorded at the weather bureau was 93, the highest in the United States. Twenty heat prostrations, one death and scores of collapses are the result of the torrid weather. New England, with five deaths due to the heat, also suffered greatly, and according to official statistics was the warmest section of the country. Great suffering was reported from all parts of the city and suburbs, and many kinds of out door work were abandoned for the day. The prospects for a little more comfortable weather today are good. The thermometer had settled down during the night.

New York, July 11.—New York City for the last twenty-four hours has been the hottest place in the United States. Some have openly voiced the opinion that New York was hotter than anywhere else on or below the earth. Nevertheless the official records show that the sunbaked streets of this city were warmer than the orange groves of Florida and the sage grass region around Yuma, Ariz. New Yorkers read with envious interest that the thermometer registered only 48 degrees in Lander, Wyoming, yesterday. There was some cessation in the heat wave this morning, and with the promise of showers relief was looked for. In the tenement district last night thousands spread blankets on the roofs and not a few slept on the side walks, while others took what rest they could on fire escapes. Scores slept in the parks on benches or under trees. Many piers along the water front were crowded with sleepers, while others went to the beaches and slept all night on the sands. Twenty-one persons lost their lives here yesterday from the heat, while fifty-two people were prostrated.

Chicago, July 11.—Old Father Time and Walter Scott, one time broncho buster, and now Croesus of Death Valley, at 11:57 o'clock wound up their wrestling match when the miner's special train from Los Angeles, rocking and swaying over the mesh of yard switches, the dashed into the Santa Fe railroad depot at Polk street. Father Time lost. Scott's special beat the schedule by three hours and six minutes. Scott escaped from the crowd by jumping into a Wells Fargo express wagon with its flaring notice of protection by United States injunction, and guarded by four policemen was driven rapidly to a hotel.

Prefect of Moscow Assassinated.

Moscow, Russia, July 11.—Count Shuvaloff, prefect of the city, was shot and almost instantly killed today as he was receiving a number of petitioners. The assassin escaped in the excitement which followed the shooting.

Later in the day the assassin was found and arrested.

St. Petersburg, July 11.—News of the assassination of Count Schuvaloff, prefect of Moscow, reached here this afternoon and created a great sensation. Count Schuvaloff belonged to an aristocraatic family and moved in the most exclusive Russian circles. He was an intimate friend of the Czar and of the Grand Dukes and it is believed that it was because of his friendly relations with the Grand Dukes that he was killed.

American Medical Association.

Portland, Oregon, July 11.—The annual meeting of the American Medical Association, was called to order this morning in the Auditorum, in the Lewis & Clark Exposition grounds, with 2,500 delegates present. Russia and Japan.

Washington, D. C., July 11.—It is learned today that while there is no definite agreement for an armistice there is a tacit understanding between the Japanese and Russian commanders in the field in Manchuria that there will be no general engagement pending the meeting of the peace plenipotentiaries in this country. There will be constant skirmishing and maneuvering for tactical advantage and position, but no big battle is expected between the forces of Field Marshal Oyama and those of Gen. Linevitch. One principal reason for this is that whatever might be the result of such a fight it could not affect the political status of the negotiations here. Whichever side won it would not make any change in the territorial possessions of the other. The fight would merely have the effect of causing a great loss of life and property and a temporary weakening of one army or the other. The results would not be commensurate with the losses involved.

It was from the standpoint of its political effect that the occupation of the Russian island of Sakhalin by the Japanese a few days ago assumed its chief importance. Actual possession of Russian territory will give the Japanese negotiators a powerful weapon in enforcing their demands for indemnity from Russia. A well-known diplomat here today advanced the theory that Japan would not desire to retain the island because it is of no use to them strategically and its possession would merely involve the necessity of its defense in the future. Its security would depend upon Japanese occupation of the Vladivostok district on the mainland to which Russia would never consent. The principal thing that Japan will endeavor to do through the peace negotiations here, according to this same authority, is to secure positive guarantees for the future. What Japan's course will be beyond asking a large indemnity to pay the costs of the war and to enable her to build a navy that will be able to cope with anything Russia may put on the seas in the future is not known here. She may consider that the recognition of her paramountcy in Korea and the exclusion of Russia from Manchuria will sufficiently guarantee her in other respects from attack in the future.

Explosion in a Colliery.

Cardiff, Wales, July 11.—An explosion occurred today at the United National Colliery, at Wattstown. No details in regard to the accident have been received, but it is feared several lives have been lost.

A later report from Wattstown says that 180 men were at work in the colliery when the explosion occurred and it is feaared that they have all been killed.

Thousands of people have assembled at the mouth of the pit and the wildest excitement prevails. Grief stricken wives and mothers of the men who are entombed crowded about the shaft, demanding information in regard to their loved ones. It finally became necessary to establish police lines to keep back the people so that rescuers could go to work. An effort is being made to get air into the shaft to the men who are entombed, and the work of rescue will be pushed as quickly as possible. There is scant hope, however, of getting any of them out alive.

This afternoon six dead bodies were taken from the mine. Among the bodies recovered was that of the manager of the mine.

All hope of saving the entombed miners has been abandoned. It is certain that the number of dead will reach 144. Eight bodies have been recovered badly burned.

The Elks in Buffalo.

Buffalo, N. Y., July 11.—Dusty and thirsty, the Elks are in possession of Buffalo. In fact their reign of control extends from the lake front to Niagara Falls, and still they come. Today's arrivals will increase the attendance to fully 100,000. Last night it was reported at the headquarters of the grand lodge credential committee that between 1,100 and 1,200 grand lodge members are registered and that 400 or 500 more were expected to register before tonight. The big fight for the 1906 reunion is between Denver, Col., and Dallas, Tex. At the front this afternoon fourteen bands will play in the prize contest.

Attacks the United States.

St. Petersburg, July 11.—The Novo Vremya today contains a strong article attacking the United States. The paper demands that no word in regard to peace shall be spoken at the coming conference at Washington, saying that if the plenipotentiaries meet in Washington the Japanese will become simply phonographs for the expression of the views of American Senators. "America is the real enemy of Russia," says the article, "and in the future Russia will blush at the sole mention of Washington more than she will at the memory of Tsushima or Port Arthur."

The Mysterious Millionaire.

New York, July 11.—Sailing Master W. S. Houghton, of the Arctic exploring steamer Roosevelt, is authority for the statement that the mysterious millionaire, who offered to be one of five to contribute $50,000, or one of ten to contribute $100,000 in response to Commander Leary's appeal for money to equip and start the Polar dash of the Roosevelt, is John D. Rockefeller.

Meet on a Train, Wed in Florida; Divorced.

Trenton, N. J., July 11.—A romance that began in a Pullman car ended in the Divorce Court here yesterday, when Chancellor Magie signed the decree which gives an absolute divorce to Mrs. Elsie M. Corle from her husband, Samuel E. Corle, jr., a Pullman car conductor. Mrs. Corle was prominent in Trenton society in 1900 as the daughter of James M. McCain. She went South, and on the way fell in love with Conductor Corle. When Jacksonville was reached, they were married, and two days later the husband left on his trip to Jersey City. He has never been seen by his bride since. Mrs. Corle sought him, but he had left the Pullman company, and could not be found. She applied for divorce on the ground of desertion.

Girl Saved Life of Boy

Stroudsburg, Pa., July 11.—Due to the presence of mind of Miss Lucy Ernest, the life of Ralph Schoenhut was saved after he had been bitten by a rattlesnake at Horters Lake. Both are children of Philadelphians, the boy being about 17 and the girl a year younger. They went out to get bark to make souvenirs, when a rattler struck the boy in the right arm. The girl ripped the boy's shirt open and saw that his arm was getting dark. She took his penknife, cut a gash in his arm and sucked the poison from the wound, saving his life at the peril of her own.

New York Stock Market.

New York, July 11.—Western houses have been sellers of the market this morning and room traders have sold and offered prices down. There is some talk of the unreliability of the crop report, but the principal cause of the decline is real liquidation of stock. On the decline large traders bought stock freely. Prices in nearly every stock traded sustained material declines during the first hour. Stop orders were reached on the declines in many stocks and their execution caused the lowest prices reached so far today.

RUSSIAN AFFAIRS.

Japan has not yet consented to an armistice, evidently being bent upon getting a firmer hold on the Island of Sakhalin. Marshal Oyama also appears to be moving for the infliction of a final blow.

The loss by fire during the recent riots at Odessa was $20,000,000, and the question of insurance is causing serious disputes between the Russian and the foreign insurance companies.

The Japanese forces are sweeping across Sakhalin Island, confident of capturing the retreating Russian garrison. The Russians burned the town of Korsakovsk before retiring.

It now appears that M. Witte was strongly urged for head of the Russian peace mission, but the Czar refused to appoint him. The Czarlina is said to be opposed to the conclusion of peace.

Storm in Samoa.

Advices from Tutuila, Samoa, are to the effect that on June 12 a gale, with hurricane force, swept over the Samoan Islands. Strong southern winds had prevailed for some time, but they veered round to the west and the north on the morning of June 12. Toward evening the wind shifted again, and came with such violence from the south that as much damage was done to the plantations as during a gale occurring in the "hurricane" months. In German Samoa much damage was done to the new plantations, principally on account of the falling branches of the high shade trees left for the protection of the cocoa and the coffee. The roof of a large copra house in Saville was blown to sea, and in Tutuila the iron roof of a new church was placed on the beach of the village. No damage was done at Pago Pago.

Great preparations are making throughout Samoa for the dedication of the Roman Catholic Cathedral in Apia, and natives from all parts of the South Pacific are sailing toward that town in small craft and open boats. Several hundred persons have left Tutuila in the last few days, and there are many going from the Fiji, the Tonga, and other islands. The festival will take place on July 20.

Fire in Coal Mine.

A dispatch from Dortmund, Prussia, says that a fire has broken out in the Borussia coal mine, caused by the careless handling of a lamp by boys. The lamp exploded, igniting the timbers of the shaft, which burned rapidly. Two hundred and fifty miners escaped through the airshaft, but thirty-nine were cut off and their death is regarded as certain. The work of rescue is attended with great danger owing to the escape of poisonious gases, and six of the rescuers are reported missing. The ground over the mine is sinking gradually, with a sound like that of thunder, as the supporting timbers of the mine are burned away. Great crowds of women and children are standing about the mine in a drenching rain, hoping for the rescue of husbands and fathers.

The Trigg Shipyard.

The shipbuilding plant of the William R. Trigg Company, at Richmond, was sold yesterday afternoon to Frank Samuel and H. G. Lloyd, of Philadelphia, for $368,000, the dock, land and buildings being bought by the former and the machinery by the latter. Mr. Lloyd bought the dock for $85,000 and the land and buildings for $175,000, while S. M. Tomlinson bought all the machinery for Mr. Samuel for $108,000.

The effort to induce the Navy Department to buy the plant was not looked on with favor at the department and it fell through.

Ireland Loses 22 Seats.

The government's proposals for the redistribution of seats were issued last night and proved to be more moderate than had been expected. Roughly, the idea is to give one member for every 65,000 of population, thereby abolishing the constituencies having populations under that figure. The effect of the proposals will be a gain of 17 seats to England, one seat to Wales and four seats to Scotland, and a loss of 22 seats to Ireland.

Bondsmen Sued.

Andrew A. Lipscomb, as principal, and Frank Hume and James W. Radcliffe as trustees, were named as defendants in four suits instituted in the Supreme Court of the District of Columbia yesterday on Mr. Lipscomb's bond as one of the receivers of the Washington Beneficial Endowment Association. In the several suits Henry Orm Stuart, through Attorneys Henry E. Davis and Padgett & Forrest, claims $9,921.95; Howard L. Morrison, administrator of the estate of Zephyrine A. Morrison, deceased, through Attorneys Legh Robinson and Conway Robinson, claims $3,150.65; Mary M. Cassin, administratrix of the estate of William D. Cassin, through Attorneys Gordon & Gordon, claims $2,237.27, and the Virginia Trust Company, a corporation, administrator of the estate of Alfred Sheld, deceased, through Attorneys Millan & Smith, claims $566.70. The plaintiffs are the persons who were finally decided upon by the court as being entitled to the fund which was held by Andrew A. Lipscomb and Thomas M. Fields, under an appointment, as receivers of the endowment association. Mr. Fields was recently convicted in the Criminal Court of the District of Colombia upon an indictment charging him with embezzling the fund, and Mr. Lipscomb was acquitted when tried upon a similar charge.

Tent Organized.

Perseverance Tent, No. 1098, of Rechabites, was formally organized last night at Odd Fellows' Hall by a delegation of that order from Washington. A number of people from this city were present and considerable interest was manifested in the movement. The following officers were elected: Chief Shepherd, Lambert D. Lyles; Past Chief Ruler, C. M. City Council.

A regular semi-monthly meeting of the City Council will be held tonight. The Board of Aldermen will act upon the ordinance providing for advertising for bids for the sale of the electric franchise, and the several committees will doubtless submit reports upon various papers referred to them at the last meeting. The city officers elected by Council will be selected this month, but it is possible that a joint session will not be held tonight as it is learned that several Councilmen are out of the city and have asked for a postponement. The probilities, however, are that the election will come off tonight. The offices to be filled have heretofore been named in the Gazette.

Strange Conduct of a Negro.

Ladies of this city who have recently been in carriages on Shuter's Hill road a short distance west of Hooff's run have had their attention attracted to the behavior of a negro who in some cases has chased the vehicles after previously acting in an improper manner. Several ladies who were in a carriage yesterday evening in that vicinity had a similar experience with the negro. It is said that he has occasionally appeared on Braddock road and repeated the same performance. Some are disposed to believe the man is demented.

Struck by Falling Door.

Mrs. Annie Starnell, who lives on upper Prince street, was seriously cut on the head and face yesterday evening by the fall of the screen door of the adjoining house while she was sitting upon her doorstep. Dr. Delaney was summoned and he rendered the necessary surgical assistance.

A densely crowded excursion train from Culpeper passed through the city this morning. One half of the cars of the train contained white people, and the other colored.

The Rixey Libel Case.

In the U. S. Court today the trial of the libel suits brought by John F. Rixey, Representative in Congress from this district, and C. J. Rixey, president of the Virginia Safe Deposit and Trust Corporation, against C. A. Stevens, for $30,000 damages in each case, were continued till October 30th. The plaintiffs allege in their declarations that their suits are brought for "malicious defamation of character." Representative Rixey, in his declaration, says that the defendant issued a letter in which he used the following terms in referring to the plaintiffs: "Thieves like Rixey," "blood," "spoils," "holdup," "cloven feet," etc. The cases were first removed from the Circuit Court of Fauquier county to the United States Circuit Court at Norfolk and then were transferred to Alexandria. The Rixeys were represented by Attorneys Rixey and Barbour, of Culpeper; Keith and Keith, of Warrenton, and C. M. White, of Warrenton, and the defendant by Messrs. R. Walton Moore, of Fairfax: Eppa Hunton, jr., of Richmond, and E. Turner, of Warrenton. When the case was called today the defendant asked for a continuance, which was resisted by the plaintiff, but after arguments by both sides Judge Waddill decided to continue the case till the 30th day of October. A large number of witnesses on both sides were present.

More Discharges.

A number of men employed in the blacksmith and carpenter shops at the Southern Railway depot in this city were discharged yesterday. The force of mechanics at this depot has been steadily reduced for some time, until now but a small number are employed there. A few years ago about four hundred men together with twenty-six apprentices were at work in the various departments at this place. The bulk of the work is now done at Spencer, N. C., and at other points on the Southern Railway.

Negro Business Men's League.

Magnus L. Robinson last night organized a branch of the National Negro Business Men's League in this city. The meeting was held at the Hotel Jackson, upper King street, and Wash Jackson was elected temporary president of the organization. The object of the league is for the furtherance of the interests of colored people by united efforts on their part to this end. The next meeting will be held at 609 south St. Asaph street next Monday night.

Modern Woodmen.

An interesting and well-attended meeting of the Modern Woodmen of this city was held last night. A degree team and officers from Washington were present and conferred degrees upon ten candidates. Applications for membership were received from seven persons. After the adjournment of the meeting the members and their guests repaired to Mr. H. Bloch's ice cream saloon where they enjoyed seasonable refreshments.

The Dogali.

The Italian cruiser Dogali, which visited this city and Washington, passed out the Capes from Hampton Roads yesterday for New York, where there will be an exchange of commanding officers. From there it is probable that the Dogali will again seek the Chesapeake and be present at the arrival of Admiral Sigsbeee's squadron from France with the remains of Admiral John Paul Jones.

Jailer Knocks Mayor Down.

In the custody of a United States marshal, under orders of United States Judge Cochran, who last week assumed jurisdiction in his case, Caleb Powers, charged with complicity in the murder of William Goebel, at Frankfort, Ky., in the winter of 1900, last night was lodged in Newport jail, across the river from Cincinnati, where he will be held pending a decision of the various legal points asising out of his transfer from State to federal jurisdiction.

Incidentally, a controversy arose between Jailer Ploeger and Mayor Hembold, as to what cell the prisoner should occupy, the mayor insisting the cell prepared for Powers was not the proper place. Subsequently, Ploeger knocked Mayor Hembold down. Contemporaneously the furniture in the cell prepared for Powers was confiscated by persons to the police unknown. Consequently, Powers was placed in another cell with other prisoners, temporarily.

For five years Powers has been in prison. He has been tried four times and sentenced to death three times; but, as he walked into the jail last night, he expressed hope of his ultimate acquittal. He was the only one of those charged with conspiracy to murder William Goebel to be convicted and sentenced to death.

The Crop Reports.

Washington, July 11.—The Weather Bureau's weekly crop report, issued today, says:

"The corn crop has experienced a week of very favorable conditions for growth, except in the upper Missouri valley. Winter wheat have continues in the more northerly districts and is largely finished elsewhere. Rainy weather has extensively interfered with thrashing and has caused damage to grain in shock in portions of the middle Atlantic States and central valleys.

"In portions of South Dakota and Minnesota spring wheat on lowlands has suffered from overflows, but elsewhere in the spring wheat region the crop is in a promising condition.

"Both standing and harvested oats have suffered considerably from wet weather, which has caused lodging, hindered harvesting and injured oats in stack and shock. A fine crop, however, is generally indicated.

"In the Carolinas, Georgia and Florida, over the greater port of Alabama and in southern Mississippi cotton has generally done well. Wet weather in Texas has favored the increase of boll wevils which are also causing damage in Louisiana.

"The general condition of tobacco is promising, though the crop is suffering for cultivation in Kentucky."

Othili Durst, one of the most prominent girls of the Cumberland, Md., neighborhood, committed suicide at her home this morning while getting ready to go to Pen Mar, a summer resort.

Want 75 Wives.

Following the example set by the bachelors of the Bonesteel, S. D., who advertised for wives, seventy-five young men of Manitou, O. T., have organized a club, the real purpose of which is the promotion of matrimony.

There is a scarecity of young women in this vicinty, and Manitou has determined that the supply shall be increased to meet the demand.

But Manitou's young men are practical. They want no dashing society buds. Their specifications call for neither trim figures nor doll faces. What they do insist upon, however, is that the applicants be "kitchen mechanics." Better to have a wife who can make good bread than one who can trip lightly through the cotillon, is Manitou's way of looking at it.

And in accordance with this view the seventy-five members of Manitou's bachelors' club have advertised for 500 women—women between 16 and 35 years old preferred, but age really no bar if all other qualifications are possessed. Out of the 500 the seventy-five young men hope to be able to pick out seventy-five well-equipped "kitchen mechanics" for wives.

Strikes Disastrous to Unions.

In its quarterly bulletin, which is the first that covers a period since Commissioner Sherman took office, the State Department of Labor of New York speaks of the disastrous effect of recent strikes upon the labor organizations that prosecuted them.

"The failure of the strike on the rapid transit system in New York," says the department, "resulted in the disruption of unions, embracing a membership of more than 4,000 men; that of the glaziers was followed by the dissolution of a union of 500 men; while the disputes in the Fulton county glove manufacture also caused very large losses. In some industries trade has only recently recovered from the recent depression, which greatly weakened the workmen's organizations. Between October 1, 1904, and April 1, 1905, 165 organizations in this State dissolved and 20 more amalgamated with other unions of the same trade. On the other hand only 99 new unions were organized, causing a net decrease of 86 and leaving 2,418 organizations in existence at the end of March. The aggregate number of members of unions was then 374,262, signifying a net decrease of 17,414 since September. New York city lost 8,741, or 3-4 per cent, of its membership, but still has 245,978 unionists.

A Grim Tragedy

is daily enacted, in thousands of homes, as Death claims, in each one, another victim of Consumption or Pneumonia. But when Coughs and Colds are properly treated, the tragedy is averted. F. G. Huntley, of Oaklandon, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, Coughs and Cold which cured her, and to-day she is well and strong.' It kills the germs of all diseases. One dose relieves. Guranteed at 50c and $1.00 by E. S. Leadbeater & Sons, druggist. Try them today.
